## 2. Core Symbols

- **Tomb Symbol (Wild & Scatter):**

- **Wild:** Substitutes for all regular symbols to complete winning combinations on active paylines
  - **Scatter:** 3+ Tomb symbols anywhere on the reels trigger 10 Free Spins. Scatter wins pay independently of paylines and are multiplied by the total bet (see payable for exact values)
- **High Symbols:**
    - **Rich Wilde (Adventurer):** 5x = 500x bet, 4x = 100x bet, 3x = 10x bet, 2x = 1x bet
    - **Pharaoh (Golden Mask):** 5x = 200x bet, 4x = 40x bet, 3x = 4x bet, 2x = 0.5x bet
    - **Anubis (Jackal-headed god), Horus (Falcon god):** 5x = 75x bet, 4x = 10x bet, 3x = 3x bet, 2x = 0.5x bet
  - **Low Symbols:** Stylized card symbols **A, K, Q, J, 10** (Egyptian-themed with golden outlines)
    - **A, K:** 5x = 15x bet, 4x = 4x bet, 3x = 0.5x bet
    - **Q, J, 10:** 5x = 10x bet, 4x = 2.5x bet, 3x = 0.5x bet

### 3. Key Mechanics

- **Free Spins Feature:** Landing 3 or more Tomb Scatter symbols anywhere on the reels triggers 10 Free Spins. Before Free Spins begin, one symbol (excluding the Tomb) is randomly selected as the Expanding Symbol. When this symbol lands on reels during Free Spins, it expands to cover the entire reel, dramatically increasing win potential
- **Gamble (optional):** After a win, players can risk the payout for x2 (Color) or x4 (Suit)

### 4. Win Profile

- High volatility slot; most win potential sits in the Free Spins feature
- Expanding Symbol full-reel hits can drive large multi-line payouts
